The search is on to find as many of the region's family-owned businesses as possible. The Family Business Roundtable is looking for family businesses that have been in existence for at least 10 years in the Western Pennsylvania region (from the border of West Virginia to Erie and eastward to Indiana and Clarion Counties). The business can be any size and in any industry. The only requirement is that they are still family-held. To submit the name of your family-owned business, send an email to [familybiz@gspconsulting.com](mailto:familybiz@gspconsulting.com) with the name of the business, its location, a web site and contact information.

As with any event, sponsorships are very important, and the Family Business Roundtable is seeking support from the business community at-large. Sponsorships start at \$500 and include tickets to the event.
